

Alcohol Hand Sanitizer

Uses

Alcohol hand sanitizer used for the removal of soiling from the hands in office, kitchen, washroom environments etc. Effective in the removal of bacteria. Suitable for use in the food processing industry.

Application

Can be applied using wall mounted soap dispensers, bottles or dispenser pumps. Apply directly to hands, rub into hands to assist in the removal of soiling, rinsing with water is not necessary. In cases of heavy soiling, wash hands with a hand wash and then rinse. Allow a contact time of 1 minute for bactericidal efficacy.
