

Aerosol Freeze-spray for the removal of Chewing Gum

Uses

For removal of chewing gum and elastomers from temperature resistant surfaces (textile and hard floor coverings).

Application

Spray on the chewing gum. Allow to work for a short time. Break up chewing gum with scraper and scrape up. Remove frozen particles immediately (vacuum up). Repeat procedure as necessary.

Dilution

Undiluted

Supplies

300ml aerosol can – P10430

Compounds

- Aerosol containing butane / propane / propylene

Technical Specifications

Description	Result
Physical state at 20°C	Aerosol
Colour	Colourless
Odour	Slight Solvent
Boiling range	Contents w/o propellant > 65°C
Density	0.97
Solubility in water	Not soluble in water
